- The cabin factor was 78 %, which is a decrease of 6 percentage points compared to the same period last year.
- The company estimates a yield around NOK 0.63 for August 2008 (+9 %)

The increase in passenger traffic, production and passengers is related to the company's expansion in established markets and to the introduction of new routes from September 2007 to August 2008, as well as adjustments in production capacity and a steady increase in passengers.

Domestic passenger traffic increased by 20 % and capacity increased by 32 %, resulting in a cabin factor of 77 % which is a decrease of 8 pp compared to the same period last year.

International passenger traffic increased by 31 % and capacity increased by 40 %, giving a cabin factor of 79 %, a decrease of 5 pp compared to the same period last year.

The operation in Poland performs satisfactory, however the market is sensitive to the added fuel surcharge.

The yield is estimated at NOK 0.63 for the period (+9 %). The positive yield development is in part due to the introduction of a fuel surcharge in May. Compared to last year the load factor has decreased as a result of the higher prices and more focus on domestic routes with higher yield but slightly lower load factors. The unit revenue has increased which compensates for the added cost from high fuel prices.

The average flying distance increased by 7 % in August compared to last year.
